

# ALEX FOX

PRODUCT DESIGNER

I believe in a lot of things. Creating compelling, people-centric products is one of them. I'm a product designer in the Bay Area thinking, designing and coding my way through the amazing challenges of connecting people and technology.

## WORK EXPERIENCE

### UI DESIGNER

WIREVIBE (2010 - 2011)

Improved design strategy amongst a team of developers for clients including a restaurant franchise, social network and more.

### PRODUCT DESIGNER

ZURB (2013-2015)

Built momentum for early-stage start ups and corporations through conceptual product design and strategy education.

### UX DESIGNER

GLOBERUNNER (2011 - 2013)

Design strategy and brand leader at a boutique digital marketing agency focused on increased engagement and conversion optimization.

### SENIOR DESIGNER

QUANTCAST (2015-NOW)

Utilizing tactical design skills to improve the Advertise product and streamline the implementation process with engineering.

## PRODUCT DESIGN PROCESS

### 01. RESEARCH

Knowing is half the battle. Exploring the market, competitors and consumers ahead of the design process can make all the difference.

### 02. IDEATE

Low fidelity sketching and rapid iteration helps build velocity and explore ideas more broadly early on in the product design process.

### 03. PROTOTYPE

Building prototypes is a great way to test your hypotheses and validate your interactions so you can be confident in your proof of concept.

### 04. VISUALS

An engaging, cohesive visual design system gives a product personality and evokes a more emotional response to the experience.

### 05. CODE

Clean, abstracted components makes for easier collaboration and a more scalable codebase as the product continues to grow.

### 06. ANALYZE

First releases can be a little rough around the edges. Monitoring engagement and collecting feedback makes a good product great.

## TECHNICAL SKILLS

My collection of technical skills makes for a comprehensive toolbox of abilities to tackle almost any digital design project.

## EDUCATION

### GRAPHIC DESIGN

NORTHLAKE COLLEGE (2006-2008)

Studied the fundamentals of graphic/visual design. After making early strides as a sophomore, I was allowed enrollment in the senior level design portfolio class for further skill definition and career preparation.
